

Launching event EEA and Norway Grants

Applicants workshop Climate Change Mitigation and Adaptation –
Bilateral Cooperation

16 June 2021

Norwegian Environment Agency (NEA)

- Agency under the Ministry of Climate and Environment
- About 700 employees – mainly in Trondheim and Oslo

Priority areas and our functions

Climate Biodiversity Pollution Outdoor life

- Collate and communicate environmental information
- Exercise regulatory authority
- Supervise and guide regional and local government levels
- Give professional and technical advice
- **Participate in international environmental activities**

EEA and Norway Grants Cooperation

- main goal to increase cooperation and relations between the beneficiary and donor countries
- partnerships between entities from the beneficiary countries and their counterparts in Iceland, Liechtenstein and Norway are therefore a fundamental part of the Grants
- many benefits:
 - ✓ International experience and network
 - ✓ Access to knowledge, experience and facilities
 - ✓ Innovative approaches
 - ✓ Increased visibility

Norwegian Environment Agency as Donor Programme Partner in the Climate programme

Our role:

- participated in the stakeholder consultation in July 2018
- given input to the preparation of the programme
- member of the Cooperation Committee and Selection Committee
- facilitate contact with possible Norwegian project partners

How the EEA and Norway Grants contribute to the EU Green Deal
