

FACTSHEET

Call for Proposals in the **Climate Change Mitigation and Adaptation** programme in **Slovenia**

OUTCOME B.3: Increased application of circular economy principles

The Government Office for Development and European Cohesion Policy (GODC) as the Programme Operator of the “Climate Change Mitigation and Adaptation” programme launches the Call for Proposals. The total amount available under this Call for Proposals is **15,564,705.88 EUR**. The available funding under the programme outcome “**Increased application of circular economy principles**” is **2,683,569.98 EUR**. Projects contributing to this outcome will be supported by the **Norway Grants 2014–2021**.

Eligible applicants	Any entity, public or private, commercial or non-commercial and non-governmental organisation, established as a legal person in Slovenia .
Eligible partners	Any public or private entity, commercial or non-commercial, as well as non-governmental organisations established as a legal person in Norway or Slovenia , or any international organisation or body or agency thereof, actively involved in, and effectively contributing to the implementation of a project.
Eligible area	The eligible area of implementation of projects is the territory of Slovenia , project activities can also be carried out in Norway when relevant to the project. The implementation of project activities outside these two eligible areas shall be admissible only in specially justified cases and subject to prior approval of the GODC. Outcomes and the outputs of the projects must be implemented in Slovenia .
Project funding:	Minimum 200,000 EUR / maximum 800,000 EUR
Grant rate	Up to 100 % of the total eligible expenditure.
Project duration	12–24 months . Projects must be completed by 30 April 2024 at the latest.

Focus

Focus is on the transition to **low-carbon circular economy** in the field of **manufacturing**, recognising the importance not only of the manufacturing sector but also of consumers and organisations along the entire supply and distribution chain (from design, production, processing, transport, sales, trade, support services, consumption and waste collection and treatment) in achieving the objectives of a low-carbon circular economy.

Expected output

Measures for circular economy implemented.

Further information about the outputs and associated indicators is highlighted in the Guide for Beneficiaries PART 1.

Supported activities

The following list contains illustrative examples of activities eligible for support:

- development and implementation of innovative pilot solutions that introduce the principles of complete material flows into the manufacturing sector,
- connecting businesses, consumers and/or the local community,
- organisation of targeted awareness raising campaigns with the aim of promoting new consumer patterns and enhancing the commitment of the manufacturing sector and the society in general to circular economy.

Further information on supported areas may be found in the Guide for Beneficiaries PART 1 and further information on project development in the Guide for Beneficiaries PART 2.

Eligible expenditures

Eligible expenditures are those that are incurred between the first and final dates of eligibility as specified in the project contract; are connected with the subject of the project contract and are indicated in the detailed budget of the project.

Eligible expenditures and the specific criteria applicable to individual categories are further detailed in the Guide for Beneficiaries PART 4.

Application deadline

All applications must be submitted by **30 September 2021 at 12:00 (noon) CET**, using the [electronic monitoring system \(eMS\)](#). Applications received by other means will be rejected.

Further information about the complete application may be found in the Guide for Beneficiaries PART 1.

Selection process and criteria

Projects will be selected based on the quality of the applications and on the extent to which they meet the selection criteria described in the Call for Proposals. Applicants must receive a minimum **of 75 point out of 95 points** to qualify for financing. Projects with a project partner from Norway shall additionally receive **5 points** after the achieved threshold of 75 points.

The **selection results** should be made public approximately **6 months** after the final date for the application submission.

The selection criteria and process are further elaborated on in the Guide for Beneficiaries PART 1.

Project contract and reporting obligations

Successful applicants – Project Promoters – will be required to enter into a **project contract** with the Programme Operator. The Project Promoter takes on full responsibility for the project and is obligated to submit **Joint Project Reports**, based on Partner Reports of each project partner, and the **Final Project Report**.

Further information regarding the project promoters' reporting obligations is elaborated on in the Guide for Beneficiaries PART 5.

Additional information and FAQ

Additional information on the Call for Proposals can be obtained before the deadline for submission of proposals by sending questions to e-address: nor_egp.svrk@gov.si.

Frequently asked questions and answers shall be published on the websites www.eeagrants.si and www.norwaygrants.si, accessible at www.norwaygrants.si/en/calls/environment, and updated once a week.
