Operational rules (Annex II)

1. Programme summary

This Annex sets out the operational rules for the programme. The programme agreement is based on the MoU, the concept note and comments made by the FMC. Commitments, statements and guarantees, explicit as well as implicit, made in the concept note, are binding for the National Focal Point and the Programme Operator unless otherwise explicitly stipulated in the annexes to this programme agreement.

The Programme Operator is the Government Office for Development and European Cohesion Policy (GODC). The Norwegian Environment Agency (NEA) is the Donor Programme Partner (DPP).

The programme objective, "Climate change mitigated and vulnerability to climate change reduced", will be attained through four outcomes; outcome 1: "Increased renewable energy production"; outcome 2: "Enhanced sustainable mobility management"; outcome 3: "Increased application of Circular Economy principles" and; outcome 4: "Improved management of ecosystems under climate change pressure".

The outcomes will be supported through one open call for projects to apply under the four separate outcomes and through a pre-defined project.

2. Eligibility

2.1 Eligible applicants:

The rules on eligibility of project promoters and project partners are set in Article 7.2 of the Regulation.

In accordance with Article 7.2.4 of the Regulations, the following entities shall be eligible:

3. Bilateral relations

3.1 Bilateral relations

The programme shall contribute to strengthening bilateral relations between Slovenia and the Donor States.

The programme shall as appropriate facilitate donor partnership projects by carrying out, inter alia, match-making events and activities in conjunction with launching calls for proposals, as well as by encouraging donor partnership projects in call texts.

The further use of the funds for bilateral relations allocated to the programme shall be agreed in the Cooperation Committee.

4. Selection of projects and financial parameters

4.1 Open calls and availability of funds (including number of calls, duration of calls, and estimated size):

There shall be one call for all the outcomes of the programme. The Call shall be launched in the first half of 2020 and will be open for at least 2 months. If appropriate and if there are non-committed funds, the second deadline for applications will be no later than in the 1st half of 2021. The Call shall be published on the programme website (www.norwaygrants.si/) in Slovenian and in English. The Call shall be widely publicised with a view to reach all potential applicants.

4.2 Selection procedures:

The project evaluation and award of grants shall be in accordance with Article 7.4 of the Regulation.

The Programme Operator shall be responsible for project evaluation, selection and the award of grants.

The Programme Operator shall review the applications for compliance with administrative and eligibility criteria. Applicants whose applications are rejected at this stage shall be informed and given a reasonable time to appeal that decision.

Each application that meets the administrative and eligibility criteria shall be reviewed by at least two impartial experts appointed by the Programme Operator. At least one of the experts shall be external and independent of the Government Office for Development and European Cohesion Policy. The experts shall separately score the project according to the selection criteria published with the call for proposals. For the purposes of ranking the projects, the average of the scores awarded by the experts shall be used.

For the selection of projects the Programme Operator shall establish a Selection Committee (hereinafter: SC). The SC shall be chaired by the Programme Operator representative. The SC will consist of at least three persons, at least one of them will be external to the Programme Operator. Members of the SC will be representatives of the Programme Operator, representatives of relevant ministries responsible for the programme areas and other relevant experts if needed.

Representatives of the Donor Programme Partner shall be invited as non-voting members. Representatives of the FMO and the NFP shall be invited to participate in the SC meeting as observers.

After the completion of the assessment performed by independent experts a ranking list of eligible projects shall be prepared by the Programme Operator and submitted to the members of the SC. The SC shall review the ranking list and recommend to the Programme Operator a list of projects admitted for co-financing within the programme. The SC may, in justified cases, modify the ranking of the projects prepared by Programme Operator after quality assessment. The justification for the modifications shall be detailed in the minutes of the meeting of the SC and all affected applicants shall be informed in writing about the justification of the modification.

The Programme Operator shall verify that the selection process has been conducted in accordance with the Regulation and that the recommendations from the Selection Committee comply with the rules and objectives of the programme. Following such verification, the Programme Operator shall, based on the decision of the SC, decide which projects shall be supported. The Programme Operator shall inform the applicants of the results of the selection process and publicise the results.

4.3 *Project grant rate:*

Grants to projects from the programme may be up to 100% of total eligible expenditure of the project, including in the case of projects where the project promoter is an NGO, as defined in Article 1.6 of the Regulation. The project grant rate shall in all cases be set at a level that complies with the State Aid rules in force and takes into account any and all other forms of public support granted to projects. Any remaining costs of the project shall be provided or obtained by the project promoter.

5. **Additional mechanisms within the Programme**

5.1 *Pre-defined projects*

Not applicable.

6. **Programme Management**

6.1 *Payment flows*

The Programme Operator shall ensure that funds are available for payments to projects in a timely manner. Payments of the project grant may take the form of advance payments, interim payments and final payments. Advance payments can be up to 30% of the total awarded grant amount in accordance with Slovenian national legislation and if funds are available at the Programme Operator's designated budget lines within the State budget. The advance payment shall be paid to the Project Promoter in line with Slovenian national legislation within 30 days following the signature of the Project Contract.

Subsequent interim payments shall be paid no later than 30 days after the approval of Project Interim Reports. The frequency of interim reporting to the Programme Operator shall be based on an agreed timetable. Final payment will be paid after the approval of a final project report.

For projects of which Project Promoters are direct State budget users there are no actual payment transfers between the Programme Operator and the Project Promoter. In this situation the programme funding is stated as appropriations within the national budget on Project Promoter's designated budget lines.

6.2 *Verification of payment claims*

Project promoters shall submit interim (if applicable) and final project reports containing information on project progress and incurred expenditure.

In line with point i) of Article 5.6.2 of the Regulation incurred expenditure reported shall be subject to administrative verifications, before the report is approved. The Programme Operator shall monitor, record and report on progress towards the programme's outcomes in accordance with the provisions contained in the legal framework. The Programme Operator shall ensure that suitable and sufficient monitoring and reporting arrangements are made with the project promoters in order to enable the Programme Operator and the National Focal Point to meet its obligations to the Donor States. In particular, the final project report from the project promoter shall comprise a final technical report, containing: i) an overview of the results and their exploitation and dissemination; ii) the conclusions on the project; iii) a report covering the wider societal implications of the project.

The Programme Operator shall ensure that estimated greenhouse gas emissions (GHG) reductions corresponding to the interventions are collected in tonnes of CO₂ equivalent per year for each project funded under the calls for proposals. For projects which will lead to GHG-emissions reductions under outcomes 2, 3 and 4 where internationally agreed methods are not available to calculate the results or that it is not cost-efficient to calculate estimated GHG-emissions, the promoters will have to describe expected results of the projects in reducing greenhouse-gas emissions, including their longer-term impacts.

When reporting on progress achieved in Annual and Final Programme Reports, the Programme Operator shall disaggregate results achieved as appropriate and in accordance with instructions received from the FMO, in accordance with Annex I to the Programme Agreement and the "Core indicators 2014-2021 Guidance document for programmes financed under the EEA and Norway Grants 2014-2021" issued by the FMO.
